Uploading Grades to WebCampus from TurningPoint

With the new integration, student participation grades can be uploaded to WebCampus in 3 easy steps:

1. Go to Manage and select the course.
2. Click on the Upload Grades button.
3. Choose the session(s) and upload the scores.

The screenshots below show the details.

A warning message showing the list of students with no subscription. Their grades won't be uploaded.

Select the sessions to upload. Then click on the Upload button.
You can also upload the grades in Results Manager. Results Manager functions as a gradebook in TurningPoint. You can view the overall participation scores of your students and manage their grades before uploading to WebCampus.

1. Go to Manage and select the course.
2. Click on Results Manager.
3. Review the grades. When you are ready, click on Integration, and choose Upload.
4. Select the session(s) and upload.

Alternatively, you can also go to Results Manager, review the grades, and then upload. Results Manager gives you an overview of student (clicker) grades.
Click on **Integration** and choose **Upload**. Choose the session(s) and upload.
