How to Add SafeAssign to your Course

Introduction

A plagiarism check tool such as SafeAssign can be an effective for learning and a promoting improvement to student writing. Adding SafeAssign creates a dropbox in your course that your students use to submit their assignments to be checked for plagiarism. This module provides step-by-step instructions for adding a SafeAssign to your course and explains the options you may select.

Ensure that Edit Mode is on and navigate to the Content Area, Content Folder or Learning Module where you wish to include SafeAssign.

Mouse over the Assessments Tab and select Assignment or edit an existing assignment.

In the Create Assignment panel, complete the fields as required.
Under GRADING, click on Submission Details to expand.

To enable SafeAssign for this assignment, check box next to Plagiarism Tools.

If desired, check box to Allow students to view SafeAssign report and/or to exclude submissions from the SafeAssign databases.
